SIMPLE & ACCURATE APPLICATION

Salford's latest 6700 model features Valmar's Venturi metering design with proven reliability and simple maintenance. Reduce application overlap and save on input costs with variable rate application and left/right section control. Engineered specifically for the AGCO TG9300 series floater chassis, this 6700 model will integrate seamlessly with your chassis.

REVOLUTIONARY NEW HOPPER DESIGN

This NEW 6700 model is capable of applying one, two or three products at once with various hopper configurations. Empty hoppers can be adjusted in seconds, no tools or bin inserts required.
